

University
of the Aegean,
Greece

*1st International Workshop on
Critical Information Infrastructures
Security
(CRITIS'06)
- in conjunction with ISC'06 -*

August 30 - September 2, 2006, Samos Island, Greece

Call for Papers

General Co-Chairs

Sokratis Katsikas, University of the Aegean, Greece
Reinhard Posch, Technical Univ. Graz, Austria

Program Chair

Javier Lopez, University of Malaga, Spain

Organization Chair

Stefanos Gritzalis, University of the Aegean, Greece

Program Committee

Marc Dacier, Institut Eurécom, France
George Davida, University of Wisconsin-Milwaukee, US
Ed Dawson, QUT, Australia
Yvo Desmedt, University College London, UK
Myriam Dunn, ETH Zurich, Switzerland
Claudia Eckert, Fraunhofer-SIT, Germany
Steven Furnell, University of Plymouth, UK
Urs Gattiker, CyTRAP-RiskIT, Switzerland
Adrian Gheorghe, ETH Zurich, Switzerland
Eric Goetz, Dartmouth College, US
Juan M. Gonzalez-Nieto, QUT, Australia
John Griffin, IBM T.J. Watson, US
Stefanos Gritzalis, University of the Aegean, Greece
Dieter Gollmann, TU Hamburg, Germany
Bernhard M. Hämmerli, HTA Lucerne, Switzerland
Tom Karygiannis, NIST, US
Håkan Kvarnström, TeliaSonera, Sweden
Diego Lopez, RedIRIS, Spain
Eric Luijff, TNO, Netherlands
Masahiro Mambo, Univ. of Tsukuba, Japan
Fabio Martinelli, CNR, Italy
Catherine Meadows, NRL, US
Simin Nadjm-Tehrani, Linköping University, Sweden
Peter Neumann, SRI, US
Eiji Okamoto, Univ. of Tsukuba, Japan
Andrew Powell, NISCC, UK
Kai Rannenberg, Goethe University Frankfurt, Germany
Michel Riguidel, ENST, France
Rodrigo Roman, University of Malaga, Spain
Roberto Setola, Univ. Campus Bio-Medico di Roma, Italy
Stefaan Seys, Katholieke Universiteit Leuven, Belgium
Sujeet Sheno, University of Tulsa, US
Stephen D. Wolthusen, Royal Holloway, UK
Moti Yung, Columbia University, US
Yuliang Zheng, University of North Carolina, US
Jianying Zhou, I2R, Singapore

Workshop scope

Key sectors of modern economies depend highly on ICT. The information flowing through the resulting technological super-infrastructure as well as the information being processed by the complex computing systems that underpin it becomes crucial because its disruption, disturbance or loss can lead to high economical, material and, sometimes, human loss. As a consequence, the security and dependability of this infrastructure becomes critical and its protection a major objective for governments, companies and the research community.

CRITIS has been born as an event that wants to bring together researchers and professionals from universities, private companies and Public Administrations interested or involved in all security-related heterogeneous aspects of Critical Information Infrastructures. We invite research papers, work-in-progress reports, R&D projects results, surveying works and industrial experiences describing significant security advances in the following (non-exclusive) areas of Critical Information Infrastructures:

- Continuity of Services
- Early Warning Systems
- Incident Response
- Information Assurance
- Forensic Techniques
- Network Survivability
- Policy Management
- Secure Information Sharing
- Security Modeling and Simulation
- Threats Analysis
- Dependable Infrastruc. Communications
- Embedded Technologies Security
- Infrastructure Interdependencies
- Internet-based remote control
- National and Cross Border Activities
- Trust Models in Critical Scenarios
- Resilient Software
- Security Logistics
- Security Risks
- Vulnerability Assessment

Instructions for paper submission

All submissions will be subjected to a thorough blind review by at least three reviewers. Papers should be up to 12 pages in English, including bibliography and well-marked appendices. Pre-proceedings will appear at the time of the conference. Additionally, post-proceedings will be published by **Springer** in the **Lecture Notes in Computer Science** series. At least one author of each accepted paper is required to register with the Workshop and present the paper. To submit a paper, please follow the specific instructions on the Workshop website (<http://critis06.lcc.uma.es>). The submitted paper (in PDF or PostScript format), which should follow the template indicated by Springer (<http://www.springer.de/comp/lncs/authors.html>), must start with a title, a short abstract, and a list of keywords. However, it should be anonymous with no author names, affiliations, acknowledgements, nor obvious references. Extended versions of CRITIS'06 selected papers will be published in the **Internat. Journal of Critical Infrastructures (IJCIS)** (<http://www.inderscience.com/browse/index.php?journalID=58>)

Important dates

Submission of papers: **June 16th, 2006**
Notification to authors: **July 7th, 2006**
Camera-ready copies: **July 24th, 2006**
